 Doors with the WindSafe[®] logo comply with requirements of one or more approval agencies, including: the Florida Building Code, Texas Department of Insurance and Miami-Dade County (FL).

 Doors with the Impact logo have been approved for impact resistance. Tests show these doors are able to stop the direct impact of a 9 lb. 2x4 board at 50 feet per second.

Wayne Dalton uses a calculated door section R-value for our insulated doors.

safety. style. performance.

Model 8800, Black anodized aluminum, White Laminated privacy glass

The right garage door has a great impact on the curb appeal of your home. Wayne Dalton offers a wide selection of designs, colors, materials, windows and accessories that best compliment your home. Transform your home with unlimited possibilities. Use this product catalog to see an overview of our residential product offering. It is divided by categories that define the construction and materials of the door with each category walking you through the 3-step designing process.

SPECIALTY VINYL

Engineered to be maintenance-free and provide an elegant look that will last a lifetime. These doors won't rust, fade, crack or dent and are great for coastal areas with lots of moisture and wind wear.

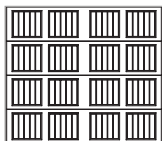

- Model 8700 comes in two panel designs that offer the timeless design of freshly painted hardwood
- This door has full PVC color construction. This means scratches will never show because the color goes all the way through the material
- The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays
- Polyurethane insulation is permanently bonded to the vinyl skin for an R-value of 11.75
- Twin 20-gauge steel C-channels run full length of each panel and are anchored to interior steel stiles for strength

DECORATIVE HARDWARE

Wayne Dalton's decorative hardware brings a distinctive, yet subtle, touch of individuality to your garage door.

Every piece is made from black powder coated steel with a hand-hammered look.

Decorative Hardware Kits

Additional accent pieces are available to match or complement each collection.

Accents Pieces

Lion Head Knocker

Fleur De Lis Levers

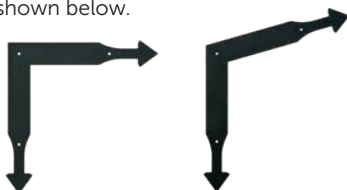

Fleur De Lis Knocker

Pyramid Clavos

Corner and angle hardware is available in all styles. Arrow style shown below.

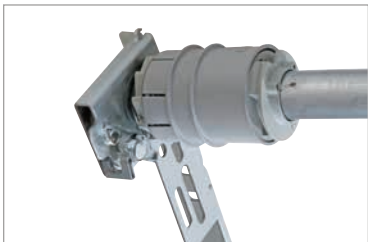

Additional Decorative Hardware options are available. See the Decorative Hardware brochure or dealer for details.

PERFORMANCE AND SAFETY

Door panels are engineered with a pinch-resistant design to prevent finger injuries while the door is closing.

Available on Models 9100, 9405, 9510, 9605, 9700 and 9800.

The TorqueMaster® Plus counterbalance contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury. Subject to size limitations. Available on Models 8000, 8100, 9100, 9405, 9510, 9605 and 9700.

Wayne Dalton Models 9100 and 9605 feature horizontal integral struts at the top and bottom of door sections which adds rigidity and strength for long life and smooth operation.

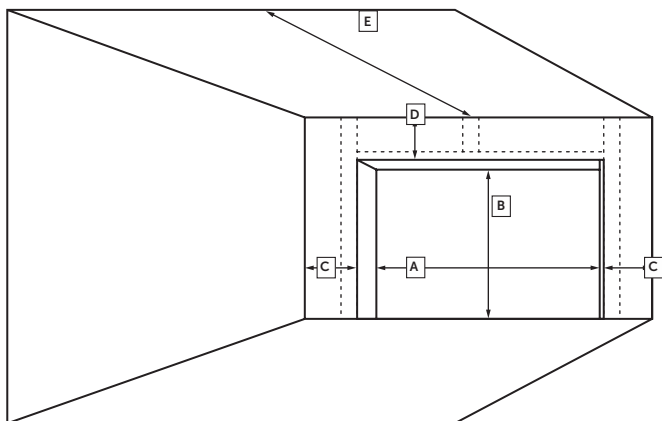

SilentGlide™ rollers have nylon wheels and solid steel shafts to provide years of smooth, quiet, dependable service. Available on all Classic Steel models and Carriage House Steel Model 9700.

The bulb-shaped bottom seal remains flexible even in extreme cold to help keep the bad weather outside.

HOW TO MEASURE FOR YOUR WAYNE DALTON GARAGE DOOR

- A - Exact finished opening width
- B - Exact finished opening height
- C - Sideroom – distance from the edge of the door opening to wall or obstruction
- D - Headroom – distance from the top of the finished door opening to the ceiling or underside of joists
- E - Room depth – distance from the finished door opening to the back point where hardware or the opener will extend

GARAGE DOOR OPENERS

Wayne Dalton and Genie are committed to offering products that provide safety, security and convenience to our customers. Genie products are backed by our commitment to excellence in innovative products and customer care.
